## ABOUT ME

Photocredits: Nikita Raman "Datong" 2016

Born and raised in The Netherlands, after 27 years of living&working in a.o Amsterdam, I traded the low lands in for a job opportunity in Beijing,China. I've spend the last +3 years enjoying the priceless adventures of expat life in Asia, to now return home to focus on further development of my skillset.

As a designer and human-being I am driven by a curiosity towards other cultures, food, art and travel. I draw inspiration from my travels across Asia frequently seeking out colorful shapes and structures. My work is known to be playful, tactile, fun and brightly colored.
